Mrs. W. S. Grinstead, of Stanford, Mrs. C. K. Oldham, of Mt. Sterling, Mr. and Mrs. J. A. Baumstark, Mr. and Mrs. T. M. Oldham, Mr. and Mrs. J. B. Baumstark, Misses Lula and Sara Lee Baumstark were pleasant guests in the home of Mrs. E. H. Bybee on Woodland avenue the first of the week.

STATE'S APPLE CROP SMALL THIS YEAR

(By Associated Press)
Frankfort, Oct. 13.—The apple crop in Kentucky this year will be only approximately one fourth what it was last year, according to reports made by farmers to Commissioner of Agriculture W. C. Hanna and to the United States Bureau of Markets and Crop Estimates at Louisville. The crop on October 1 gave promise of totaling 1,215,000 bushels, as compared with 5,780,000 bushels last year.

The story of what growers say was the damage done by frost last spring, when killing frosts occurred long after the trees were in full bloom, is told by the reports of conditions in the various counties. 56 counties making no reports of condition on this crop. The best report came from Henderson county with a crop 80 per cent normal, with Logan county, where the condition was said to be 68 per cent of normal, second, and Ballard county reporting a crop of 63 per cent normal. Martin, Bath and Montgomery counties reported the lowest per centage, the crop in each being one per cent of normal. Daviess county, which is second only to Henderson as the banner apple county of the state, reported a crop 41 per cent normal.

Testing Kentucky Cattle

(By Associated Press)
Frankfort, Oct. 13.—Three hundred and forty-eight herds, containing a total of 3,159 cattle were tested by the Kentucky Livestock Sanitary Board and the United States Bureau of Animal Industry during September, according to figures just made public here. A total of 59 reactors were removed from the herds. There are now approximately 2,000 herds in the state under official supervision and these include nearly 30,000 cattle. More than 1,000 other herds will be tested as soon as they can be reached.

A vote in favor of the two proposed constitutional amendments is lending encouragement to the establishment of a political machine of tremendous power, and a step toward the ultimate domination of Kentucky schools by political bosses.—Glasgow Times.

A. B. Oldham and sons of Mt. Sterling, the former a brother of W. D. Oldham, of this city, and J. H. Borer, of Nicholasville, bought out the mercantile business of G. A. Elder, of Lebanon, and will take possession Jan. 1st.

Clark Hi to Play
MADISON HERE FRIDAY

On Friday afternoon at 3 o'clock on the Normal field the Madison High School will meet the strong team representing the Clark County High School at Winchester. The Madison squad has been showing fair form during the early part of the season. They have line plunging power, but are unable to hold the ball. If they can develop the ability to keep the ball in their hands and not let it fall to the ground, they stand a good chance of winning some games by turkey day. Jim Allman has been showing marked improvements in the past few days. He is developing "pep" and has some of the elements of leadership.

Frank Hacker has been doing well at end and has been acting captain in the games thus far.

Talton Stone shows signs of leadership and has speed, coupled with good signal calling power. Lafor Wilson needs a little more "pep" in calling signals, just a little more talk to his team. He has shown talent in carrying the ball, particularly in the Mt. Sterling game.

Pete Anderson is playing a fine consistent game in the backfield. He is able to hit the line hard and is always good for a helpful distance.

Tevis Hugely is a top-notch in gaining yardage. He always shows up better in a game than he does in practice, which is always a good sign.

The punting of John Ed Allman has been highly acceptable. He plays a splendid game in the line. Marshall Hurst has driving power as a backfield man and is a gridiron artist of much promise. When he learns how to hold the ball he will be of A-1 calibre.

Blevins and Reeves are line men who are playing a good game for their first year's experience. They are a big part of the splendid line which Madison had against the Montgomery countyans.

Bowers has been making more than an average showing for his initial try on the gridiron.

The probable lineup of the Madison team, according to Coach Lassiter is as follows: F. Hacker, lb; John Allman, lb; Harry Stone, lg; James Allman, c; Blevins, rg; Reeves, rt; Bowers, re; Wilson, qb; T. Stone, lb; Hugely, rb; Anderson, fb.

The Clark County Hi team has been very unfortunate in losing some of their star players. Winchester City Hi has secured most of the Clark county men to change their school so that last year's great team at Clark County Hi has been broken up and they will have to start from the bottom again and go up. They have prospects, however, for a good team and Madison will have to fight for every inch of the ground that they gain.

The Madison eleven has mastered the shift play to a very telling effect and are said to have shown a very fine line in the game with Mt. Sterling last Friday. The boys have lost their first two games and are out to win this one. They have been showing a great deal of pep and after a little more practice they will be a very high polished eleven under Coach Lassiter.

WOMEN OF MIDDLE LIFE

A Dangerous Period Through Which Every Woman Must Pass

Practical Suggestions Given by the Women Whose Letters Follow

to carry women safely through the Change of Life. She says:

"It is with pleasure that I write to you for what your wonderful medicine has done for me. I was passing through the Change of Life and had a displacement and weakness so that I could not stand on my feet and other annoying symptoms. A friend told me about Lydia E. Pinkham's Vegetable Compound and the first bottle helped me, so I got more. It cured me and I am now doing my housework. Your medicine is certainly a woman's friend and you may use this testimonial as you choose."—Mrs. MARY LISTER, 608 Frank Street, Adrian, Mich.

It is said that middle age is the most trying period in a woman's life, and owing to modern methods of living not one woman in a thousand passes through this perfectly natural change without experiencing very annoying symptoms.

Thos smothering spells, the dreadful hot flashes that send the blood rushing to the head until it seems as though it would burst, and the faint feeling that follows, as if the heart were going to stop, these sinking or dizzy spells are all symptoms of a nervous condition, and indicate the need for a special medicine.

Lydia E. Pinkham's Vegetable Compound is a root and herb medicine especially adapted to act upon the feminine system. It acts in such a manner as to build up the weakened nervous system and enables a woman to pass this trying period with the least possible annoying symptoms.

Women everywhere should remember that most of the common ailments of women are not the surgical ones—they are not caused by serious displacements or growths, although the symptoms may be the same, and that is why so many apparently serious ailments readily yield to Lydia E. Pinkham's Vegetable Compound, as it acts as a natural restorative and often prevents serious troubles.

Lydia E. Pinkham's Private Text-Book upon "Ailments Peculiar to Women" will be sent to you free upon request. Write to The Lydia E. Pinkham Medicine Co., Lynn, Massachusetts. This book contains valuable information.

Dr. Hobson's Eczema Ointment

How to Make Child-birth Easier!

DO YOU wish to know how thousands and thousands of women have gone thru motherhood without knowing some of the pains and discomforts incident to childbirth? Listen to this:

Motherhood creates almost a new state of being for a woman.

As a result, new nerves, those heretofore restful and quiescent, spring into activity, they cry out, they tingle, they burn in their unrest.

The network of nerves across the abdomen, the loins, the back and other parts now become super-sensitive. All these nerves are being called on to perform unusual duties.

These nerves must be pacified and comforted; must be put in condition for the crisis that is pending.

If these nerves are not soothed and quieted, they may set up aggravated nerve tension, increasing in severity from month to month, sometimes even culminating in a nervous paralysis of the back and limbs. This leaves the mother-to-be in a condition where she is unable, fully, to meet the test when the climax of maternity arrives.

WARNING: Avoid using plain oils, greases and ointments—they act only on the skin and may cause itching without doing good.
